

Release Date: Q2 2012	
Version: 4.10	
Component	Feature/Enhancement
Target PC - Linux	New Data Collection Module: ScreenShot Module
Target PC - Windows	Split the Video Module into two: ScreenShot Module and WebCam Module
Target PC - Windows	Enhance the WebCam Module to support ABE (Application Based Events)
Target PC - Windows	Enhance the Screen Module to support ABE (Application Based Events)
Release Date: Q2 2012	
Version: 4.20	
Component	Feature/Enhancement
Target PC - Windows	Access/Changed/Deleted Files Modules - limit the recording size
Target PC - Windows	Enhance the Forensics Tools Module with ABE (Application Based Events)
Target PC - Windows	Stop recording data when when the target has low disk space
Target PC - Linux	Stop recording data when when the target has low disk space
Target PC - Linux	Data Collection Module: WebCam
Target PC - Mac OS X	Stop recording data when when the target has low disk space
Target PC - Mac OS X	Data Collection Module: File Access
Agent/Master/Target	enhance Alert options with: Alert when target goes offline
Target PC - Windows & Target Mobile - iOS	Data Collection Module: iOS Infection through iTunes
Agent	Enhance the export data functionality
Agent	Enhance the collected evidence Report
Release Date: Q3 2012	
Version: 4.30	
Component	Feature/Enhancement
Target PC - Linux	Data Collection Module: File Access
Target PC -Windows	HTTP Tunneling as a communication channel with the Proxy/Relay
Target PC -Windows	Enhance Accessed/Changed Files with Application Based Events options
Target PC - Mac OS X	Split the Video Module into two modules ScreenShot Module and WebCam Module
Target PC - Mac OS X	Enhance the Screen Module with ABE (Application Based Events)
Target PC - Mac OS X	Enhance the WebCam Module with ABE (Application Based Events)
Agent	Enhance the Data Analysis Componet
Agent	Extend the Data Analysis search with search through Comments and Importance Level
Documentation & Agent	Review the terminology e.g. <b>File Access</b> should be named <b>File System Browser</b>
Agent/Master/Target	enhance Alert options with: Alert when target changes countries
Target PC - Windows & Target Mobile - Blackberry	Data Collection Module: Blackberry Infection through Blackberry Desktop Manager
Release Date: Q4 2012	
Version: 4.40	
Component	Feature/Enhancement
Target PC - Windows	Data Collection Module: Clipboard Module
Target PC - Linux	Binary encryption for Trojan Components
Agent/Master/Target	Enhance Alert options with: Alert when target starts an specified application
Master	Keep "ghost" recordings in place of removed evidence
Agent	Define Templates - predefined Target configurations

<b>Release Date: Q1 2013</b>	
<b>Version: 4.50</b>	
<b>Component</b>	<b>Feature/Enhancement</b>
<b>Target PC - Windows</b>	Suspend Screen Recording when the screensaver is running
<b>Target PC - Windows</b>	Access/Changed/Deleted Files Modules - limit the recording size enhancement
<b>Target PC - Linux</b>	Hiding
<b>Agent</b>	Enhance the User Management with de definition of new custom User Groups
<b>Agent/Master/Target</b>	enhance Alert options with: Alert when target types a predefined keyword(s)
<b>Target PC - Windows &amp; Target Mobile - Windows Mobile</b>	Data Collection Module: Windows Mobile Infection through ActiveSync
<b>Target PC - Windows &amp; Target Mobile - Android</b>	Data Collection Module: Android Infection using the Android Device Bridge tech.
