

## ISS World MEA 2013 Agenda At A Glance

Tuesday 5 March 2013 (After Noon)

	TRACK 1		TRACK 2	TRACK 3	TRACK 4		TRACK 5		TRACK 6			TRACK 7	
	ISS for Lawful Interception and Criminal Investigations		ISS for Big Data Analytics and Social Network Monitoring	ISS for Mobile Location, Surveillance and Intercept	Encrypted Traffic Monitoring and IT Intrusion Product Training (LEA and Govt. Only)		Lawful Interception and Criminal Investigation Product Demonstration Track (LEA and Govt. Only)		Social Network Monitoring and Big Data Analytics Product Demonstration (LEA and Govt. Only)			Mobile Location, Surveillance and Signal Intercept Product Training (LEA and Govt. Only)	
	Session A	Session B			Session A	Session B	Session A	Session B	Session A	Session B	Session C	Session A	Session B
	Deira Salon B (Main Level)	Room 250 (2nd Floor)	Room 350 (3rd Floor)	Deira Salon A (Main Level)	Pre Function A (Main Level)	Zabeel (Main Level)	Zabeel (Main Level)	Jumeirah (Lower Level)	Baniyas (Lower Level)	Palm II (Lower Level)	Zabeel (Main Level)	Palm III (Lower Level)	Zabeel (Main Level)
14:00-14:30	FoCC: Filtering of Communication Content <i>Utimaco LIMS</i>	IPv6, Identities & DPI <i>ipoque</i>	Social Media and LI: Technology Perspective <i>C2Tech</i>	Securing Infrastructure and Borders with Location Intelligence <i>TruePosition</i>	FinFisher - Next Generation governmental surveillance. Focus: Mobile phone monitoring <i>Gamma Group</i>		Challenges Facing LEA, Innovative Approach to Solutions <i>ISnSC</i>	Replay NetAnalyst 3.0 - the Next Generation in Advanced IP Reconstruction <i>NetScout</i>	Monitoring Center Next Generation - demo <i>trovicor</i>	POMS: An eagle's view of Facebook & Twitter <i>Semptian International</i>	Insight into Social Media Networks <i>BAE Systems Detica</i>		
14:30-15:00	Communication Surveillance in the Fight Against Child Exploitation - Re-balancing the Ethical Debate <i>AREA</i>	Network assets providing valuable positioning capabilities <i>Creativity Software</i>	"Big Data for Network Activity: Powering Effective Cyber Investigations" <i>ISC8</i>	Active, Passive and Hybrid GSM & 3G Monitoring Systems. New Challenges (Randomization, etc.) Practical Solutions. <i>NeoSoft AG</i>									
15:00-15:30	Refreshment Break in Exhibit Hall												
15:30-16:00	Challenges in cross domain solutions for Lawful Interception <i>Global Security Network</i>	Discover How Voice Biometric and Speech Solutions Transform Audio Interception <i>Nuance Communications</i>	Why Smartphones are Becoming more and more essential as sources of important data for crime investigation and intelligence gathering <i>Micro Systemation</i>	Network assets providing valuable positioning capabilities <i>Creativity Software</i>	Da Vinci: a spy story about busting a terrorist organization by using the most advanced offensive technology <i>Hacking Team</i>			Application & User Data Interception Demo <i>ipoque</i>	Social Networks and Webmails: Big Data Architecture for Massive Interception <i>IPS</i>	Social Media Real Time Monitoring and Reporting by AGT Troy Software <i>AGT</i>	TruePosition LOCINT solution demonstration including mobile client <i>TruePosition</i>	PHOENIX: undetectable GPS & AUDIO device <i>GR SISTEMI SRL</i>	
16:00-16:30													Plug and Replay™: The Benefits of an Open IP Reconstruction & Analysis Platform <i>NetScout</i>
16:30-17:00													
17:00-17:30					Less Invasive than a Trojan and Less Complicated than a Strategic Solution: The New IPS Encrypted Traffic Monitoring <i>IPS</i>		Do It Yourself (DIY) Workshop for Trojan based monitoring <i>ClearTrail Technologies</i>
