FACT ABOUT HOST COUNTRY

Indonesia is located in the intersection of the Pacific Ocean, along the Malacca Straits and the Indian Ocean. Over Half of all international shippings sail through Indonesian seas and straits. Increasingly, Indonesia is playing a more important and strategic roles in global affair. Indonesia emerge as a key player on cross-cutting international policy issues such as climate change and the global financial architecture, which will have direct and indirect impacts on business and investment decisions.

In The Year 2013:

- Population Growth : 243 Billion
- The Government of Indonesia is optimistic that the Gross Domestic Product (GDP) in Indonesia could reach slightly over US \$ 1 trillion.
- The Governor of Bank Indonesia, estimates Indonesia's Economy will increase in the range of 6,3 – 6,7 %
- Income Per Capita ranges between USD 4,400 – 4,500 (Presidential Economic Adviser)

MARKET UPDATE

Indonesian navy planning to procure between five and seven more submarines by 2024.

The Indonesian defense market, estimated to value US\$8.1 billion in 2013, is expected to grow at a CAGR of 22.4% during the forecast period to value US\$18.2 billion in 2017. The primary stimulator of defense expenditure is the government military modernization program, which was undertaken to compensate for the severe military underfunding during the review period. It is currently estimated that the defense budget is capable of satisfying only 52% of the country's required military defense expenditure.
