Hi team,

I would like to propose my expertise for joining in your team.

As you can see from my attached CV, I have over 5 years experience in STMicroelectronics and in particular in embedded firmware and device driver. In this role I was in charge to develop the Android BSP for a STM SoC (SPEAr1340), while actually I'm working on device driver and Android HAL for Motion MEMS devices.

I hope my skills could be interesting for you in your exciting activities.

Please contact me for any clarification.

Best Regards,  
Giuseppe Barba.
