1 ISNR

Founded in 2008, **ISNR Abu Dhabi** established its position as the definitive regional homeland security and national resilience event in the Middle East and North Africa. As a key addition to the global security calendar, this biennial event has become a unique networking platform for governments and private sectors: **a place to exchange knowledge, share best practices, discover the state-of-the-art technologies - and do business.**

> The 2012 Event: **9,177** industry professionals • **178** exhibitors • **89** official delegations

And now, for our 2014 edition, the event is going further than ever before. Organised in partnership with the UAE Ministry of Interior, the International Security, Safety & National Resilience Exhibition and Conference is growing in reach and influence beyond homeland security and national resilience by bringing new, world class events and a renowned international brand together for the first time, in one place at one time:

- Security & Safety Leaders' Forum – a world class conference for security and safety officers and professionals
- Fire & Emergency Middle East – a specialist event for the Fire & Emergency industry
- Information Security – a new information security highlight by ISNR, dedicated to the Middle East and North Africa region's professionals
- ISC Middle East – the world class physical security event from the USA at ISNR Abu Dhabi
- Occupational Safety and Health Middle East – a dedicated event promoting safety and health at work

ISNR 2014. More influential. More connected.

The improved ISNR concept will be bigger, better – and more connected than ever. In its new expanded shape, **ISNR Abu Dhabi** will feature a **40%** larger exhibition space with **400** exhibitors, and will play host to **15,000** senior security, safety and emergency professionals from across the Middle East and North Africa region, making it the perfect place to meet, learn, share and grow your business.

Sharing best practices. Exploring innovation.

Aligned with the UAE's Government strategy for safety, security and national resilience, **ISNR Abu Dhabi** is the ideal platform for security and safety decision makers, experts and professionals from across the board of industries, enabling them to:

- **Tackle** the challenges of a safe and secure environment
- **Establish** strategies for secure and safe nations
- **Explore** the latest innovations for the integration of security and safety technologies

- **Foster** a region-wide culture of security and safety
- **Enable** better industry/government networking to share best practices
- **Network** with industry professionals
- **Generate** business relations and leads

Your entire world of security, safety and national resilience. 5 specialist events. 1 ISNR.

The expanded ISNR profile brings 5 unique stand-alone specialist security, safety and national resilience events together in one place, enabling a unique gathering of talent, expertise and new business opportunities.

Security & Safety Leaders' Forum	The definitive security platform, bringing senior regional and global officials, police chiefs and security experts to strengthen international cooperation to: • Tackle global issues in homeland security, national resilience and emergency response • Establish dialogue and encourage strategic partnerships
Homeland Security & National Resilience	The Middle East's key homeland security and national resilience event showcases the entire spectrum of homeland security and resilience in one place, bringing together state-of-the-art solutions and technologies for detection, prevention, protection, response to and recovery from disasters or threats.
Information Security by ISNR	Information Security by ISNR is a new highlight developed by ISNR to serve regional industry IT security officers and professionals with avant-garde solutions to ensure the security of business information and IT infrastructure.
ISC MIDDLE EAST	Part of the globally renowned security event ISC West, the new ISC Middle East attracts top industry leaders, regional key players and professionals to exhibit and explore the latest solutions and technologies for the protection of physical and human assets.
FIRE & EMERGENCY MIDDLE EAST	Dedicated to regional public and private emergency specialists, the new Fire & Emergency Middle East enables them to source the latest technologies and solutions in fire fighting, protection, emergency medical services, first response, fire prevention and public safety.
OCCUPATIONAL SAFETY AND HEALTH MIDDLE EAST	The region's specialist platform for promoting an advanced safety culture. Ideal for professionals from the public and private sectors, it showcases the latest techniques to identify workplace risks, promotes best practices, and makes it easy to trade.
