FINTRAINING

Security awareness is **essential for any government** to maintain IT security and successfully **prevent threats** against IT infrastructure, which may result in a loss of confidentiality, data integrity and availability.

On the other hand, topics like **CyberWar**, Active Interception and Intelligence-Gathering through **IT Intrusion** have become more important on a daily basis and require Governments to **build IT Intrusion teams** to **face these new challenges**.

FinTraining courses are given by **world-class IT Intrusion experts** and are held in **fully practical scenarios** that focus on **real-life operations** as required by the end-user in order to solve their **daily challenges**.

Gamma combines the individual training courses into a **professional training and consulting program** that builds up or enhances the capabilities of an IT Intrusion team. The Training courses are **fully customized** according to the end-user's operational challenges and requirements. In order to ensure full usability of the transferred knowhow, **operational in-country support** is provided during the program.
