

Miniature Audio Transmitter
HATX-4111/4112 120 100 0080 / 81

Miniature Transceiver Systems - Audio – 120

Miniature Audio Transmitter - HATX-4111/4112

Description

The HATX-4111/4112 is a miniature audio transmitter, which has a compact design. High spectral purity and no sub harmonics provided by the SAW resonator oscillator type. The transmitter is designed for room monitoring. With its built-in miniature electret microphone (Knowles) produces excellent transmission of background noise.

The delivery is possible as with internal microphone (HATX-4111) or with external microphone (HATX-4112). The transmitter has a transmission power of 10 mW.

Several scanners with fitted frequency range are recommended as suitable receiver (see Model Group 110).

Technical Data

Frequency Range:	approx 390 MHz
Modulation:	WFM
Output:	10 mW
Power Supply:	3 V DC
Power Consumption:	8 mA
Dimensions:	approx. 23 x 10 x 3,5 mm (external microphone)

Scope of Delivery: HATX-4111/4112
Transport Box
