

Newsletter 1/08

April 2008

Elaman is a company backed by many years of experience in technical intelligence techniques and equipment.

Elaman works exclusively on behalf of authorized Government Security Departments and Law Enforcement Agencies.

As a result of many years of "active service" for clients worldwide, Elaman's assistance is highly sought after.

Kind regards
Your Elaman Team

Elaman's Technical Surveillance Vans

Surveillance and Command or Control Vehicle General Overview

Elaman will individually design surveillance vehicles to your exact requirements, meeting with you at all the major milestones during the design and integration process to ensure that each vehicle, not only meets your current needs, but can also be upgraded in line with future technological developments.

No two surveillance vehicles are alike. These vehicles are especially designed to meet individual needs, such as, vehicle type, finish, operational usage, equipment for integration, etc. Whatever you are looking for, from a very basic surveillance, command or communications vehicle, to a complete mobile command and control center, Elaman can provide a complete design and integration service.

Elaman manufactures a wide range of vehicles to suit every operation, built to exacting standards and specifications:

- General Surveillance Vans
- Sprinter Surveillance Vans
- Surveillance Vans Satellite Transmission
- Command Surveillance Vehicles

- Direction Finding Communications
- Remote Controlled Surveillance Vehicles
- Surveillance Vehicle Kits
- Specialist Audio Vans
- Communication Monitoring Vehicles

Some examples of the equipment installed in our specialist surveillance vehicles:

For perfect concealment and long range observation the Periscope is fitted to the vehicle, combining the Ultra Low Light Camera and the Zoom Lens, thereby, achieving long range observation.

The main control and recording equipment are housed in our custom built rack unit to allow smooth operation and ease of maintenance.

ISS Singapore 2008

ISS Singapore 9-11 June 2008:

For further information or an invitation to visit us at the ISS Singapore, the world's largest gathering of Asia Pacific Telecom Operators, Law Enforcement, Intelligence and Defense Analysts and network Intelligence gathering, contact us.

Important Dates

GPEC Munich, June 3-5, 2008
ISS Singapore, June 9-11, 2008
Natia, San Jose, July 12-18, 2008
ISS Prague, October 1-3, 2008
Milipol, Doha, Nov. 17-19, 2008

The heart of the surveillance vehicle is the Midas Command and Control Software that enables the monitored media (audio/ video/data) to be collated and transmitted fully encrypted to the HQ operation center.

Video/Audio surveillance operations (Analog/Digital) can be received and recorded directly in the surveillance van for further processing.

Examples of Surveillance Vans Models

- Mercedes
- Ford
- Renault
- VW
- Toyota
- MB
- Nissan
- GM

Mercedes Sprinter

The Mercedes Sprinter range of vehicles comes in short wheelbase (SWB), medium wheelbase (MWB) and long wheelbase (LWB). There are also medium and high roof variations. Also available as a chassis cab that can be converted to a recovery truck are the Luton van, flat bed drop-side, single or three-way tipper, box van, horse box or cherry picker. All Mercedes Sprinters have good towing capacity. There is a choice of single or twin rear wheel back axle for heavier loads.

Ford Transit

The Ford Transit Van range has held market leadership for over 40 years by giving you real choice, so you can find the perfect vehicle for your business needs.

Depending on which model, the Transit Van offers short, medium or long wheelbase and front or rear wheel

drive, plus three roof heights for ultimate flexibility.

GMC Savana

The 2007 GMC Savana Cargo (GMC also refers to it as the "Work Van") is a full-size van meant primarily for commercial use.

The standard wheelbase (135-inch) Savana comes in half-ton (1500), 3/4-ton (2500) and 1-ton (3500) configurations, while the extended-wheelbase version (155-inch) is available on the 2500 and 3500 series vans only.

Toyota Hiace

The Hiace is a strong, hardworking, but stylish asset, offering a choice of engine and equipment levels to meet a wide range of commercial needs. In addition, it offers impressive load capacity, complemented by the choice of swing out rear doors or a two-stage lifting tailgate on the GS grade. Available in standard or long wheel-

Toyota Hiace

base it's easy on the driver and easy on the budget.

Nissan

Distinctive and fresh in appearance, Nissan van drives as well as it looks. With an intelligent cabin design, smart load space, smooth driving performance, it gives you something to look forward to. It gives you all the cargo space you need. With two lengths and heights to choose from and a multitude of options, it's entirely adaptable to your business.
