- Profiling, screening and associating
- Intelligence analysis
- Open-source information analysis
- Billing analysis
- Archive analysis

# Integrated Intelligence

- Power is of little use without good, timely and accurate intelligence
- Despite huge budgets and enormous effort, the intelligence community's super-powers still get it spectacularly wrong
- The key is not in capacity or even in the use of technology
- The key is in the *Integration* of intelligence from all sources and the *Integration* of its exploitation
- Integrated Intelligence training offered from Elaman
- It is applicable today to deal with an equally pernicious threat from Islamic fundamentalists and internationally sponsored terrorism
- It is not a 'magic bullet'
- It is an intelligence force multiplier

# Integration of the Intelligence Operation

# Integration of the Intelligence Operation

- Elaman training offers solutions:
  - To ensure that all agencies are working to common priorities at all times
  - To ensure that all agencies' product is cross-referenced with other agencies
  - To verify or consolidate the intelligence of one agency through another
  - To get the intelligence to decision-makers
- All within a closed-loop multi-agency intelligence cycle in which each agency will be guarding its own sources and methodology
