Miniature Transceiver Systems – Video - 130

Video Kit 2400

Description

The Video Kit 2400 is designed for video and audio transmission in the frequency range of 2.4 GHz with an output power of 40 mW. Due to its compact components it is possible to get started immediately.

The system guarantees a good quality in video and audio transmission.

The components of the system allow a full operational capability on both the transmitting and receiving side.

The Video Kit 2400 consists of.

1	Micro Camera Transmitter 2.4 GHz with accumulator
1	Video Receiver VRX-2302LCD with accumulator
1	Mini Digital Video Recorder
1	audio/video cable for video recorder
1	SD-Card 1GB
1	Transport case
